POWER MIG[®] 260

FABRICATION SIMPLIFIED

Fabrication Simplified

The POWER MIG® 260 welding machine sets the standard for MIG and Flux-Cored welding in light industrial shop fabrication, maintenance, and repair work. It offers superior welding performance with a host of professional features. The seven inch full color graphic display with automatic controls make setup and operation intuitive and easy.

One Powerful Machine

Ready.Set.Weld® Quick Set-Up

- >> Intuitive push-and-turn digital controls make setup a breeze
- >> 7 inch color display guides you through the setup process
Advanced options and settings are simple to access

More Performance For Your Dollar

- >> Universal Input Voltage
- >> Maxtrac® wire drive provides constant wire feed speed and consistent welds
- >> Front access to 115V power outlet and gun connections
- >> Push-pull and Spool gun ready for aluminum projects*
- >> Automatic settings provide optimal weld parameters

Ergonomic Design

- >> Tilting gas bottle tray for ease of loading
- >> Ideal height for easy-to-view settings
- >> Easy maneuverability and small footprint
- >> Convenient top-mounted expendable parts compartment

ArcFX™ Technology

- >> Patented technology providing instant graphical feedback on how Wire Feed Speed and Voltage affect the weld outcome.

*Push-pull and Spool gun required (sold separately)

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.com for any updated information.
