

SPECIALTY GASES

Pure Hydrocarbons

WHAT MATTERS IS INSIDE

Providing producers/distributors with high purity hydrocarbons & refrigerant hydrocarbons, equipment, and technical expertise to grow their business.

CERTIFIED • QUALITY • AVAILABILITY

Pure Hydrocarbons are critical for achieving accurate, reproducible, and reliable results.

Pure hydrocarbons, whether supplied as gases, liquefied gases or liquids, are used to make liquid or gas mixtures or to supply to the petrochemical, process or research industries. Weldstar Specialty Gases is able to **tailor-make** or **purify specific hydrocarbons** to your unique specification.

Weldstar Specialty Gases encompasses products ranging from **liquid mixtures** and **trace impurity mixtures** to **refinery gas** standards. From smallest **cylinders** to the **largest tanks** we have the containers to meet your requirements.

Weldstar Specialty Gases relies on highly **efficient cylinder preparation** and **tightly controlled filling systems** that provides a consistent ability to produce the exact grade our customers require.

Hydrocarbon Industries

- **R&D Centers & Pilot Plants**
 - Catalyst
 - Polymer
 - Petrochemical
 - Fuel Cell
- **Laboratories**
- **Refrigerants**
- **Semiconductor**
- **Propellants**
- **High-purity Fuel Source**

High Purity

Taylor-Made

Purify Specific

Weldstar is part of PurityPlus® Quality Assured Laboratories Group, the largest network of independent specialty gas producers in North America.
