# BULK GASES/ SYSTEMS PLANNING

## Improving Productivity and Profitability

As your volume needs change, Weldstar's bulk gas department delivers "real" customer value by working with you to improve your cost savings and productivity to effectively meet those needs.

Weldstar manages your gas requirements by designing the bulk delivery system for your specific gas application while maximizing your profits.

### What makes Weldstar Unique?

Weldstar offers personalized customer support services that only a local independent can provide. With the in-depth knowledge of our Bulk Gas Manager and our team of highly skilled Technical Representatives, Weldstar has the expertise and support available that you need. Weldstar representatives will analyze your monthly consumption of liquids and/or gaseous usage, recommend the proper size tank, vaporizer, and piping design as your full support team for all your bulk gas system needs.

#### Applications are varied and include:

- Metal Fabrication/Cutting
- Laser Gases
- Heat Treating
- Inert Blanketing
- Forensics

#### Bulk Products Include:

- Argon
- Oxygen Nitrogen
- Helium
- Propylene
- CO2
