TESTIMONIALS

WHAT OUR CUSTOMERS SAY

TESTIMONIALS

"Thank you for helping me through hundreds of problems in the past twelve years. I consider you and your crew part of our staff. We have many suppliers for many items, but only one supplier for our welding consumables. We are completely satisfied with your service, your products and especially the feeling of "back-up" that you provide."

"COMPLETELY SATISFIED"

GARY WILSON
Anzels Welding & Fabricating

"It costs approximately 1 to 1.5 million dollars a day when a plant is down and not operating, so we have to be very efficient. When you go to the manufacturer, it takes much longer to get a good certified material test report (CMTR) so it's important to get the correct materials the first time. We use Weldstar for the service and they take the time to do the job right the first time."

PAUL R. EVANS
Southern Nuclear

"DO THE JOB RIGHT"

"I really wish that more companies would place value in true customer service as you and your organization have demonstrated. It's a lost skill these days and it's good to see that some still understand that things like this pay off in customer loyalty."

"CUSTOMER LOYALTY"

ERIC WHITE
Skyline Services, LLC

"I was the Building Weld Engineer for the Aurora Tube Facility the past three years, when I needed anything for the weld lines I would call Weldstar. Their response time was second to none and their service is the best in the industry."

JEFFREY DEWYSE
Caterpillar, Inc.

"SECOND TO NONE"

"Thank you for making available your facility for our engineer welding training class. Our engineers came away from the training with a greater knowledge of welding. Using your facility was an outstanding opportunity to get away from the pressures of the job-site and dig into the basic skills. The knowledge gained and the relationships built are an investment in both of our futures."

"GREATER KNOWLEDGE"

JOHN L. HOMER
BMW Constructors, Inc.

"We've worked with Weldstar for many years and they continue to provide quality materials with no certification problems, which is very important at a Nuclear plant. Their sales reps will do whatever is required and have gone the extra mile when called upon."

DAVID L. DIEDERICH C.P.M.
Exelon

"THE EXTRA MILE"

"Thanks so much! I really appreciate the great service and fast response time! You are definitely one of the best companies I have worked with in a very long time! We will be ordering from you as often as we can in the future."

"GREAT SERVICE"

REBECCA MADDOX
Will County Generating Station

"I have been through three major suppliers that either had difficulty with keeping the paperwork straight or keeping the deliveries going to the proper job site. Unfortunately the tolerance for error dealing with welding consumables at BP refinery is zero. I am happy to say that since switching to Weldstar we have had virtually no issues."

PAUL STOUT
AMS Mechanical

"NO ISSUES"
