Customized Training Programs

Weldstar offers a variety of training programs for its customers. Each training program is individually tailored for the needs and requirements of the target audience.

Programs can run as short as thirty minutes and as long as several days. Depth of coverage, area of concentration, and number of people to be trained is taken into consideration when determining the length of training.

Prior to scheduling training, a Weldstar technical representative will meet with the appropriate person to discuss their expectations of the training program. Together, Weldstar and its customer tailor a program that best addresses those expectations. Weldstar often involves outside experts in their training to enhance its programs.

PROGRAMS INCLUDE:

- Abrasive Selection and Safety
- A.W.S. Codes and Classifications
- Basic Welding Processes
- Cylinder Handling and Regulator Safety
- Laser Gas Delivery Systems
- Oxy-Fuel Safety
- Plasma Cutting and Safety
- Welding Safety

For more information on Weldstar's training program, contact your Weldstar Technical Representative, or a store location near you.
