WELDSTAR CYLINDER MARKINGS

Weldstar gas cylinders are stamped with markings to indicate ownership, specifications, pressure ratings, and other important data.

NECK RING IDENTIFICATION

Displays the name of the original owner of the cylinder.

CYLINDER SPECIFICATION:

- DOT—Department of Transportation Specification.
- Specification of the cylinder type of material of construction (3AA)
- Service or working pressure in pounds per square inch (PSI).

MANUFACTURER SERIAL NUMBER

CYLINDER OWNER NAME

MANUFACTURE YEAR

INSPECTION STAMP

MANUFACTURE MONTH

RETEST MARKINGS:

The format for a retest marking is: Month – Facility – Year Plus Rating – Star Stamp.

PLUS RATING

The + symbol indicates that the cylinder qualifies for 10% overfill.

STAR STAMP

The ☆ symbol indicates that the cylinder meets the requirements for 10-year retest, instead of a 5-year retest.
