Mighty Fronius
Steel Welders

MEET THE MIGHTY FRONIUS STEEL WELDER LINE UP

Developed in the field with you, Fronius TransSteel is your reliable partner for steel welding. With its rugged design, smart features and ease of operation you and your TransSteel will get the job done.

- / ROBUST AND RELIABLE
- / VERY EASY TO OPERATE
- / DESIGNED FOR STEEL WELDING

/ ORDER NOW AND GET A FREE WELDING HELMET
AND FREE SHIPPING WITHIN THE USA!

Fazor 1000 PLUS

FUNCTIONAL, INDUSTRIAL GRADE DESIGN

- Rugged and attractively styled
- Manual and Synergic mode with 5 Job Memory-function
- Special Steel Characteristics: “Root”, “Steel”, and “Dynamic”
- Active temperature controlled
- Ground fault detection
- Automatic burn-back control
- Dust filter
- Automated cooling unit cut out with flow sensor and liquid level indicator (water cooled version)
- Wire spool view window (compact version)

COMFORT WIRE

/ Autonomous feeder-inching, with no need to open the wirefeed rolls.

/ Color coded drive rolls make it easy to choose the correct wire diameter

SUPER STURDY DESIGN

/ The “FSC”, Fronius System Connector is the “spinal cord” of the torch. All media are routed through this central connection-point. A fastening lever locks the torch in place quickly, accurately and without needing any tools, for the strongest torch connection ever.

FASTSNAP, ULTRALIGHT GUN

/ Twist and pull: that’s all it takes to safely change and lock the gas nozzle

/ The ergonomically shaped torch rests comfortably in the welder’s hand. The ball-and-socket joint provides effective strain relief, and the soft-touch grip pads on the handle-shell prevent the torch slipping out of the user’s hand.

FSC: FRONIUS SYSTEM CONNECTOR

/ Central connection-point for all media
/ Hosepack can be locked simply and safely, with no tools, to ensure defined current transfer

INDIVIDUAL ADJUSTMENT-GUIDES

/ Interchangeable adjustment guide templates for different material thicknesses make manual operation much easier

/ Easy, operator-friendly user interface for quick operation with no need for time-consuming introductory training. 5 easy job memory slots to store your favorite parameters.

FILL-LEVEL WINDOW

/ Makes it easy to keep an eye on the coolant level, in addition, the cooler will inform you if water level is too low directly in the front panel.

Complete, ready-to-weld packages

All packages include a high efficiency inverter CV MIG power supply with integrated or external wire feeder, drive rolls*, 16 ft (5m) ground cable including clamp, carriage with single or double cylinder rack, torch, flow meter, plus a free Fazor 1000 welding helmet and free shipping within the US.

*For more details see specs below.

	TransSteel 2500 Compact	TransSteel 3500	TransSteel 3500	TransSteel 5000	TransSteel 5000	TransSteel 5000 Dual feeder
Rated output	250 A	350 A		500 A		
Input voltage	1x 200 - 230 V 3x 380 - 460 V	3x 200 - 240 V / 3x 380 - 460 V				
Programmable sequences	5 Easy Jobs					
Cooling System	Air cooled	Air cooled	Water cooled	Air cooled	Water cooled	Air cooled
MIG gun	14.8 ft (4.5m) 250A MIG gun for .030/.035 wire	14.8 ft (4.5m) 400A MIG gun for .035/.045 wire		14.8 ft (4.5m) 500A MIG gun for .035/.045 wire		2x 14.8 ft (4.5m) 500A MIG gun for .035/.045 wire
Drive rolls	.030" and 0.35"			.035" and .045"
