

AUTOMATION SOLUTIONS THAT WORK!

Welding automation gives you advantages such as:

- lower manufacturing costs
- better weld quality
- an enhanced working environment
- much higher productivity

Bringing you the most extensive automation solutions available in the marketplace.

The seamless integration for automation in the job shop makes learning the process easier, allowing you to concentrate on other areas of your business. Let Weldstar/Depke analyze your automation needs and bring the best available solution to you.

Weldstar/Depke technical representatives are trained in a variety of welding automation applications including:

- Robotic Work Cell Solutions
- Seam Welding and Tracking
- Orbital Welding
- Fixturing and Positioning Equipment
- Automated Plasma and Cutting Operations
- Circumferential Welders
- Subarc Systems

"Our previous supplier put us in a real bind and Weldstar delivered the high quality products our customers demand quickly and at a SIGNIFICANT savings. The sales & service staff are outstanding. We have switched all our lab gas needs to Weldstar and look forward to a long business relationship with them!"
