

**Thank you for making available your facility for our engineer welding training class."**

*Our engineers came away from the training with a greater knowledge of welding. Using your facility was an outstanding opportunity to get away from the pressures of the job-site and dig into the basic skills. The knowledge gained and the relationships built are an investment in both of our futures."*

**John L. Homer**

*Director of Continuous Quality Management*

**Most knowledgeable considerate people in the trades."**

*"Most knowledgeable considerate people in the trades towards working with. Love the shop, service and readily available supplies. Their service repair guy is the best and the entire team. has helped save me thousands!!! Will not shop elsewhere!"*

**James Dirt Dorner**

*Artbydirt*

**Whether we are dealing with sales, office staff, or our driver we are always treated well."**

*"We have been using Weldstar for our hard supplies going on to two years now. For the last 6 months we have been using them for all of our welding needs including hard supplies and gas. During this time we have been very pleased with not only the product that they offer but the level of service we receive. I'm sure we are a small account to them but that doesn't seem to matter, whether we are dealing with sales, office staff, or our driver we are always treated well. In this day and age it's nice to find companies that not only provide good products but act like they want you as their customer."*

**Aaron Ozminkowski**

*Production Manager*

**WHAT OUR CUSTOMERS SAY**

**The people at Weldstar are diligent, personable, and sincere. They take the time to learn the challenges we face and then come up with several solutions for us to consider."**

*"The Weldstar team has been a key reason for Temprite's growth and continuing success over the past 15 plus years.*

*While they do the fundamentals very well - delivering quality welding supplies on time and at competitive prices, they are also vitally important in recommending, showing, demonstrating, and offering training for new welding and cutting technologies.*

*This is important as we venture into more complex vessel weldment designs where welding and cutting labor are larger components of the product cost.*

*It's a pleasure doing business with these guys. They really care!"*

**Jim Nonnie**

*Executive Vice President*

**Beyond the pricing, the customer friendly atmosphere displayed by Weldstar's employees is what keeps us most satisfied"**

*"Over the course of the last 14 months or so, we have been ordering from Weldstar Co.. We at Superior Graphite could not be more pleased with the service, and also the pricing. By switching to Weldstar, we have been saving about 5K a year on just Industrial Argon alone.*

*Beyond the pricing, the customer friendly atmosphere displayed by Weldstar's employees is what keeps us most satisfied. From always answering our calls, to greeting us with a friendly smile upon delivery, to giving us nice edible gifts each New Year, we could not be more happy with the service they give.*

*Thank you, Weldstar for always meeting our needs in a timely and professional fashion."*

**Andrew Orasco**

*R & D Technician*

## The sales & service staff are outstanding."

"Our previous supplier put us in a real bind and Weldstar delivered the high quality products our customers demand quickly and at a SIGNIFICANT savings. The sales & service staff are outstanding. We have switched all our lab gas needs to Weldstar and look forward to a long business relationship with them!"

Lora Davis  
Office Manager

## Customer service is second to none."

"Customer service is second to none. I always feel like the staff is genuinely concerned with getting me the help I need."

Kyle Hankey  
KEY Services, LLC

## Weldstar always goes above and beyond to make sure that their customers are happy!"

"Weldstar always goes above and beyond to make sure that their customers are happy! I can call them at the end of the day needing something and they are always more than willing to go out of their way to make sure I get what I need when I need it. We have developed a great working relationship with every member of the Weldstar team that we have come into contact with. If you are looking to develop a working relationship with a company that works as hard as you do, Weldstar is your best bet!"

Ashly Villanueva  
Administrative Assistant

## We use Weldstar for the service and they take the time to do the job right the first time."

"It costs approximately 1 to 1.5 million dollars a day when a plant is down and not operating, so we have to be very efficient. When you go to the manufacturer, it takes much longer to get a good certified material test report (CMTR) so it's important to get the correct materials the first time. We use Weldstar for the service and they take the time to do the job right the first time."

Paul R. Evans  
Quality Welding Engineer

## The customer service is superior."

"As a custom pressure vessel manufacturer it is critical that my suppliers are knowledgeable, available and reliable. Weldstar has been the choice for all my welding supplies and equipment for over 15 years. The customer service is superior and their willingness to do whatever it takes to keep me fabricating even during an equipment breakdown is paramount. From last minute orders to Saturday deliveries and sourcing equipment the Weldstar team has always delivered."

Brian Youssi  
President

## "Weldstar is the most reliable welding supplier"

"Weldstar is the most reliable welding supplier that I have had the opportunity to work with and your order is never just another order."

George Hlifka  
Welding Manager
